

SENIOR SOFTWARE TEST ENGINEER_4312

SEND RESUMES TO: rpatel@brossgroup.com

LOCATION: Lakewood, Colorado

JOB DESCRIPTION

Primary responsibilities include the analysis of customer requirements and software design specifications in the form of use case diagrams and scenarios, activity models, process models, interaction diagrams, state diagrams, decision models, dependency diagrams, CRUD matrices and traceability matrices; development and execution of test plans (test cases, test scenarios, regression tests and automated test scripts) in accordance with the requirements and software design specifications; recording and tracking software defects; evaluation of actual test results against expected test results; and working closely with requirements, development, and customer personnel to deliver high quality software.

REQUIRED SKILLS

- Analyzing customer requirements and software design specifications
- Developing test plans
- Using SQL to assess data in Oracle databases
- Learning new technologies quickly with minimal support and guidance
- Continuously improving process
- Working independently and collaboratively in teams
- Prioritizing work and working on multiple tasks
- Analyzing and solving problems
- Communicating effectively
- Interacting professionally with both clients and peers.
- Multiple years of hands-on manual software testing
- Willingness to take the initiative
- Ability to organize and manage time.

Bachelor's degree from an accredited college in a related discipline, or equivalent experience/combined education, with 9 years or more of professional experience; or 7 years of professional experience with a related Master's degree.

DESIRED SKILLS

- Programming with automated test concepts and tools including Mercury Interactive Quality Center, SilkTest, SilkPerformer; SOATest; and PL/SQL
- Life cycle development methodologies
- Using #use cases# for requirements
- Being a test lead on integrated product teams (IPTs)
- Supporting customer User Acceptance Test.
- Developing automated test scripts
